HANTS 2nd SESSION - WINCHESTER - JULY 1832

7 YEARS TRANSPORTATION

GAOLERS REPORT - ORDERLY IN PRISON  
-----

We the undersigned inhabitants, householders hereby certify that LETITIA FRAN (sentenced at the last Hants Quarter Sessions at Winchester to seven years transportation for robbing her master Mr [Plaisto] of Portsea) bore a good character previously to the confession of that offence, and was considered an honest and industrious girl, and we respectfully state our belief that a confinement of initigated duration, in some penitentiary, would in preference to transportation have the effect of bringing her back to the path of respectitude and restoring her to the world as a useful member of society.
